ACA Requirement to Have Health Insurance

In March, 2010 President Obama signed the Affordable Care Act. One provision of the Act required that starting in 2014 all Americans must have qualified health insurance or face a “Shared Responsibility Payment” more commonly known as the Health Care Penalty. In order to protect us both from future IRS liability in the event of an audit, we require all individual taxpayers for 2018 to positively affirm the following items related to Health Care. Please initial each item and sign the bottom of the affirmation.

We certify that our entire household had qualified health insurance coverage for all 12 months of the of the 2018 calendar year.

In the event you do not have qualified health insurance for the entire year for your entire household, please provide us with the following information regarding insurance coverage for all members of your household. In the absence of the your providing us with information regarding an exemption from the requirement to provide health insurance we will calculate the penalty and include it with your return.
